

WE PROVIDE CARE WHEN IT'S MOST NEEDED

A Geriatric Care Manager is often the best alternative when you need help caring for a loved one.

Whether long distances or hectic schedules limit your caregiving ability, We Care Elder Services provides a complete range of comprehensive elder care services in your time of need.

Our fully trained geriatric care managers specialize in assisting families in meeting an older person's short and long term care needs by matching services to the individual's needs. After carefully assessing each situation, we identify and facilitate the implementation of a personalized care plan and provide ongoing support for each aspect of care.

Although each plan is different, our services can provide for everything from financial and legal guidance—including bill paying and guardianship—to recommending the most suitable living arrangements—at

home, assisted living facility, nursing home, medical center; as well as provide companion care when indicated. In fact, as your family's personal representative, we manage every aspect of your loved one's care with compassionate concern and qualified experience.

Because we become your partners as caregivers, you can depend upon us to help your loved ones continue a healthy, independent lifestyle for as long as possible. "We Care" is part of our name because caring is what we are all about.
